Outstanding Environmental Analysis Document

PG&E Jefferson-Martin 230 kV

Transmission Line Project EIR

Prepared for:

**California Public Utilities Commission**

Prepared by:

**Aspen  
Environmental Group**

*Comments by the Jury:* “The Jefferson-Martin Transmission Line project EIR provides a model for thoroughness and clarity in the preparation of a CEQA document. The document is extremely well-organized, with a precise and concise narrative supported by excellent graphics. The mitigation measures, in particular, are extremely well-crafted, and cumulative impacts are carefully enumerated.”
